OUR  
BEST  
PROJECT  
IS TO SAVE THE  
SEA.

At **Cressi** we understand that our sea is in grave danger, and its entire ecosystem is under threat.

**Cressi** was founded, and still lives, just steps from the sea in Genoa. We breathe sea air in everything we do, and every one of our products is inspired by the incredible beauty of the waters we see before us.

The only way to fight pollution in the sea is to be aware and active, first hand.

So at **Cressi** we've decided to take some concrete actions: 100% of the energy we use in our Genoa factory is clean and completely green, provided by **LifeGate**.

**LifeGate** provides us with 100% renewable energy with zero impact.

That's why we are proud to present our latest, most important, and best project.

**CRESSI**  
PROJECT

CLEAN  
ENERGY  
FOR THE  
SEA

CRESSI

Cressi Headquarters in Genoa and the main production facilities in Italy

OUR BEST PROJECT IS TO SAVE THE SEA

Zero Impact is LifeGate's project that calculates, reduces and offsets CO2 emissions generated by people, events, products, businesses and organisations.

## CRESSI HYDROSPORTS 2021 COLLECTION

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946.

Today, with this new line of products, Cressi seeks to bring its passion above the surface of the sea too.

With its close relationship to this environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products:

Can you go on holiday with a small, light SUP?

Is it possible to combine a session at sea with a passion for freediving or fishing?

Wouldn't it be nice to admire the sea bed from the SUP?

Is it possible to achieve high performance on an inflatable SUP?

Cressi Hydrosport aims to answer these and other questions with this catalog: a guide designed to help you choose the best equipment for your needs.

**Start exploring with Cressi Hydrosports.**

# USE OF THE CATALOG COMPARISON GUIDE

The right page of each SUP is designed to be placed next to the right one of any other table in the catalog. This method allows a quick comparison and an immediate perception of the different dimensions and main features that distinguish and differentiate each SUP in the Cressi Hydrosports collection.

**Comparison chart**  
In this graph you can quickly see the strengths of each Cressi Hydrosports SUP.

**Materials and compositions**  
This horizontal band is the comparison area between the various tables of the collection on the composition and the materials used.

**Dimension**  
Thanks to this visualization, you can immediately see the size of the SUP, compared to a human figure of 180 cm in height.

**Comparison table**  
At the end of the ISUP section you can find the comparison table between all the tables in the catalog. On this double page you can have an overview of the entire Cressi Hydrosports ISUP collection.

# THE SHAPES OF THE COLLECTION

The shapes of the SUP Cressi Hydrosports 2021 are designed to combine aesthetics and functionality:

**All Round:** easy to handle and stable, ideal for all levels of experience and sea conditions.

**Touring:** highly hydrodynamic, it is suitable for the more experienced and for long paddling sessions.

**Fish:** very stable and voluminous, it is suitable as a base for alternative activities.

## ELEMENT ALL ROUND ISUP SET

Minimalism and pure lines, combined with the quality of Cressi DWF technology, give rise to a classic, no-frills inflatable SUP for paddling purists.

The All Round shape, with rounded nose and flat tail, provides great maneuverability and stability.

The nose rocker (curved bow) improves buoyancy by preventing the tip of the board from plunging into choppy waters, making Element perfect for sea use.

The large diamond-patterned pad offers a spacious walkable area and optimal grip, even when barefoot in the water.

Element is a ready-to-use set, easy to inflate (in under 10 minutes), carry and store thanks to the practical backpack supplied: a space-saving solution equipped with all the accessories you need to go stand-up paddleboarding with peace of mind.

Available in different sizes, it's suitable for all levels of experience and build.

## CRESSI Double Wall Fabric

Element boards are made with Cressi DWF (Double Wall Fabric) technology, an airtight multilayer<sup>1</sup> material whose internal fibers<sup>2</sup> give it a perfectly flat and rigid surface once inflated. The double-layer

rail<sup>3</sup> with variable thickness guarantees excellent performance during use but is easy to roll up, for a board that's durable and easy to use.

# TRAVELIGHT FOLDABLE 9'2" ISUP SET

Easy to transport, light and compact: Travelight is the Cressi Hydrosports SUP that's ideal for travelers.

The innovative design of the SUP enables it to be folded longitudinally then rolled up, thereby occupying half the space of an inflatable SUP of the same size.

Travelight is made with Cressi LWF technology, our lightest and strongest construction in the Inflatable category, which minimizes its weight without affecting performance.

The All Round shape makes the board highly versatile and manageable for different levels of experience and build.

The set is complemented by similarly compact accessories designed ad hoc, including the small Feather pump and the MOD5 modular paddle, which lets you transport the entire set in the TERA backpack, only 50 cm tall.

# LIGHTEST AND MOST TRAVEL FOCUSED SUP

# TRAVELIGHT FOLDABLE 9'2" ISUP SET

Lightest and most travel focused SUP

The board that combines stiffness and lightness, performance and high portability. All in a small 50 cm backpack, ideal for travelers.

# A LARGER WINDOW TO LOOK BEYOND

## REEF WINDOW 10'2" ISUP SET

The full snorkeling experience from above the surface: a new perspective for encountering and observing the underwater environment with maximum respect. This is Reef, the new Cressi Window ISUP with the biggest window yet.

The large 34" 'fish' shape coupled with the pre-laminated material have enabled us to design an elongated window that extends from the paddling position to the bow, and thanks to the sturdy layer of Crystal Clear PVC, Reef's window offers an exceptional view of the seabed during your outing.

The high buoyancy, curved bow and generous 9" drift give the board great stability, to let you comfortably admire the sea wherever you go.

## FLUID ALL ROUND 10'2" ISUP SET

Our most versatile, safe and performing board in all aquatic conditions and activities, suitable for learners as well as the most experienced, ideal for sea excursions in calm or choppy waters, through to yoga and fitness.

Thanks to Cressi Double Chamber PLF technology, this inflatable board also combines exceptional structural rigidity with the safety of a second integrated air chamber.

Stable and maneuverable thanks to its generous thickness (15 cm) and wide width (81 cm), Fluid is the ideal SUP to ensure maximum fun at all times.

Equipped with an 8" fin to increase maneuverability, the classic All Round shape with a rounded and curved bow transmits a linear and gentle feeling of paddling.

The diamond-patterned pad always ensures a firm grip, even with bare feet in wet conditions.

Fluid is a set complete with all the accessories you need to practice, and thanks to the supplied pump it inflates in under 10 minutes.

# FLUID ALL ROUND 10'2" ISUP SET

## TIGER SHARK MULTITASK 10'2" ISUP SET

Can the pleasure of stand-up paddleboarding be combined with a passion for spearfishing and freediving?

Tiger Shark was born from this question and is designed to offer new possibilities for enjoying these activities.

The large and spacious 'fish' shape is ideal for providing stability onboard when preparing and setting up the equipment.

Thanks to Cressi Storage Hatch PLF technology, this board makes it easy to transport equipment, with a large and practical locker in the bow equipped with a cover mesh pocket for storing items like ropes, fins or the catch itself.

The supplied adjustable strap with D-Ring can be passed under the board to connect the ascent line during diving and stored while paddling, so as not to affect hydrodynamic performance.

The bow is equipped with a base and shaft with a diving flag, while the D-Rings are equipped with adjustable elastic bands to attach spearguns and rods to the side hooks, so as not to take up space onboard and always offer a view of the equipment.

The practical bungee elastic cords are positioned at the stern to provide an additional cargo area.

# MOST VERSATILE AND EQUIPPED SUP

# TIGER SHARK MULTITASK 10'2" ISUP SET

# FURY TOURING 12'2" ISUP SET

Fury is the ISUP from Cressi Hydrosports dedicated to touring. The hydrodynamic and elongated shape, coupled with the very light Carbon paddle supplied, make this set the best one for lengthy paddleboarding sessions.

The curved bow (nose rocker) improves its buoyancy in the sea, preventing the tip from sinking into the ripples of the waves, while creating hydrodynamic resistance.

The Cressi Double Chamber PLF technology maintains a highly performing structural rigidity while paddling, despite the board's length of over 12 feet, and the double air chamber guarantees greater safety in case of accidental punctures.

The large 9" drift positioned far from the center of gravity helps maintain a linear trajectory even at low speeds, providing an advantage over long distances.

# FASTEST AND BEST PERFORMING SUP

+ CARBON PADDLE

# FURY TOURING 12'2" ISUP SET + CARBON PADDLE

**THE FIRST SUP SPECIFICALLY CONCEIVED FOR WATER SPORTS CENTERS AND RENTAL ACTIVITY**

**SOLID RENTAL ISUP**

Solid is the Cressi Hydrosports SUP family designed specifically for professional rental.

The use of Double Chamber Reinforced PLF technology and triple-layer anti-abrasion rail (the most resistant and robust composition in the whole collection) guarantee maximum structural rigidity and great safety during sessions at sea.

The board is available in the All Round version with one seat and Tandem with two seats.

Due to their intended professional use, the two versions of Solid have features designed to improve the experience of both the boards' end users and those who rent them.

Numerous D-rings and handles are positioned along Solid's structure to facilitate hooking and transport.

Furthermore, each side features special dedicated HIN (Hull Identification Number) spaces for customized numbering by the rental center.

The US Click 9" fins supplied have a quick coupling and release system, with a variable-intensity locking system.

Each board will be accompanied by a Trailer Leash, a reinforced elastic rope with double S-shape carabiner, useful for towing and mooring.

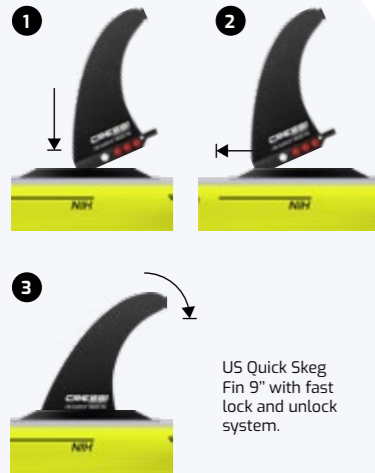

Solid has 5 practical handles to facilitate transport and storage

## SOLID RENTAL ISUP

The first SUP specifically conceived for Water Sports Centers and Rental activity

Solid is born to meet the need for a very resistant, rigid and safe inflatable board. These SUP are designed specifically for Watersports Centers and for professional rental, with the stronger technology in the collection.

US Quick Skag Fin 9" with fast lock and unlock system.

### CRESSI HYDROSPORTS Double Chamber PLF reinforced

Triple-layer reinforced rail with external anti-abrasion coating, for longer-lasting boards when subjected to greater stresses from prolonged use during rental. The double air chamber

core<sup>2</sup> made of pre-laminated material with a dedicated valve gives the user high rigidity and safety in case of air leaks caused by accidental punctures.

HIN space for customized numbering by the rental center

Thanks to the Trailer Leash supplied, it will be possible to easily and quickly connect the boards through the D-Rings positioned at the bow and stern, so as to be able to keep all the boards under control during numerous outings.

## NAMAKA IKAYAK SET

Namaka is the Cressi kayak created to explore the coasts and nature, to move silently and reach places inaccessible by sailing or swimming, with zero emissions and the utmost respect for the marine environment.

Available in two versions, single or double seat, Namaka is an inflatable kayak with excellent stability thanks to its air chambers with tubular sections, which are ideal for following the waves.

Comfort is ensured by the inflatable seats that provide a raised paddling position, while the velcro strips and adjustable straps allow the lumbar support to be moved and adapted along the entire cockpit.

Namaka is equipped with nylon linings at the bow and stern with splash guards, practical bungee cords, handles to help carry it out of the water, a velcro oar holder and reinforced bottom with anti-abrasion layer.

Both models are ready-to-use sets, supplied with all the accessories needed for inflation and immediate use, from the pump to the paddles (two for the double and one for the single) up to the quick-hooking fins.

## PADDLES

Lightness, strength and versatility; these are the key values our collection of paddles seeks to offer. Our designs are created to meet the specific needs of those who go stand-up paddleboarding and kayaking, with a focus on inflatable products and portability.

For this reason, the choice of materials is directed only towards those with high levels of corrosion resistance, lightness, and elasticity such as aluminum, nylon and carbon fiber.

Behind the apparent simplicity hides great attention to detail, aimed at improving performance and usability.

Highlights include: the one-hand height adjustment mechanism, the floating capacity and an easy assembly system.

Finally, modularity is what unites all our paddles, to ensure easy transport and storage within the sets they are supplied in.

**MOD3 SUP PADDLE**

<b>Max Height</b>	215 cm	84"
<b>Min Height</b>	165 cm	64"
<b>Disassembled</b>	89 cm	35"
<b>Parts Number</b>	3	
<b>Composition</b>	Aluminum + Nylon	
<b>Blade sizes</b>	47x18 cm	18"x7"

Sturdy and versatile telescopic SUP paddle in 3 modules, suitable for all levels of experience. Floating and adjustable with centering and height notches, one-hand locking system. Aluminum handle and stainless button springs, reinforced nylon blade and handle.

**MOD5 SUP PADDLE**

<b>Max Height</b>	218 cm	85"
<b>Min Height</b>	185 cm	72"
<b>Disassembled</b>	50 cm	19"
<b>Parts Number</b>	5	
<b>Composition</b>	Aluminum + Nylon	
<b>Blade sizes</b>	42x20 cm	16"x8"

Telescopic SUP paddle in 5 modules, designed for those who need to transport it in compact backpacks. Floating and adjustable with centering and height notches, one-hand locking system. Aluminum handle and stainless button springs, reinforced nylon blade and handle.

**CARBON SUP PADDLE**

<b>Max Height</b>	215 cm	84"
<b>Min Height</b>	165 cm	64"
<b>Disassembled</b>	90 cm	35"
<b>Parts Number</b>	3	
<b>Composition</b>	Carbon Fiber	
<b>Blade sizes</b>	48x18 cm	19"x7"

High-performance and lightweight SUP paddle, suitable for long sessions and distances. Floating and adjustable with centering and height notches, one-hand locking system. Carbon fiber handle and blade.

**MOD 4 KAYAK PADDLE**

<b>Length</b>	220 cm	86"
<b>Disassembled</b>	65 cm	25"
<b>Parts Number</b>	4	
<b>Composition</b>	Aluminum + Nylon	
<b>Blade sizes</b>	44x18 cm	17"x7"
<b>N.of blades</b>	2	

Lightweight and durable kayak paddle in 4 modules, ideal for all experience levels. Float with 3-level adjustable inclination, equipped with non-slip grip and drop guard. Aluminum handle and reinforced nylon blades.

## ACCESSORIES

The quality is in the details, and the Cressi Hydrosports line hasn't neglected the importance of accessories for its SUPs and kayaks.

These consist of a selection of products conceived and designed for maximum functionality and reliability, specifically aiming for greater comfort and ease of use, interchangeability and replacement, agile transportation and modest size.

Included in the sets or available separately, the accessories let you fully enjoy stand-up paddleboarding by meeting all the relevant needs.

**WELTER  
HAND PUMP**

<b>Height</b>	63 cm	2'6"
<b>Volume</b>	2000 cc	2x2 L
<b>Weight</b>	1 kg	2,2 lb
<b>Max Press.</b>	1.0 Bar	15 PSI
<b>Action</b>	Inflation and deflation	

Welter is the largest capacity Cressi Hydrosports pump. With a volume of 2000 cc, it can inflate a 300 l board in under 10 minutes. The mechanical selector can be used to set the pump to double or single action, to reduce fatigue when inflating at high pressures. Equipped with a deflation function, pressure gauge and multiple bayonet connections, it's compatible with all Cressi Hydrosports SUPs and kayaks. Its foldable pedestal and unscrewable handles make Welter compact and easy to store in a backpack.

**FEATHER  
HAND PUMP**

<b>Height</b>	45 cm	1'5"
<b>Volume</b>	1100 cc	2x1,1 L
<b>Weight</b>	0,8 kg	1,8 lb
<b>Max Press.</b>	1.0 Bar	15 PSI
<b>Action</b>	Inflation and deflation	

Compact and lightweight, this 1100 cc pump is specially designed for anyone who needs a high-performance product to be transported in the smallest possible space. Equipped with inflation/deflation function and mechanical selector for double action (air injection by both pushing and pulling) or single action for high pressures. Equipped with folding pedestal, unscrewable handles, pressure gauge and multiple bayonet connections, it's compatible with all Cressi Hydrosports SUPs and kayaks.

**BOLT 12V DC  
ELECTRIC PUMP**

<b>Power</b>	12V DC	
<b>Elect. Current</b>	15 A Max	
<b>Weight</b>	1,5 kg	3,3 lb
<b>Max Press.</b>	1,2 Bar	18 PSI
<b>Action</b>	Inflation	

The Bolt electric pump from Cressi Hydrosports allows optimal and fatigue-free inflation at high pressure. Simply select the desired pressure on the ring nut and activate the pump, which will automatically deactivate once the pressure is reached. The 12V connection and battery terminals make it ideal for car trips. Only compatible with the Cressi Hydrosports ISUP range.

## APPAREL

A collection of technical clothing essential for paddling in safety and style.

Made with only the best materials, to protect against all weather conditions in the water and ensure freedom of movement and maximum comfort.

## SHIELD RASH GUARD T-SHIRT

## ARMOR RASH GUARD SHORTS

Cressi Hydrosports Rash Guard clothing is designed for all water sports. The composition of the fabric enables the clothes to dry very quickly and provide protection from harmful UV rays.

The elasticity of these rash guards and the flat seams offer complete comfort during movement, while maintaining excellent resistance to any abrasions caused by rubbing in the water.

-  **50+ UV PROTECTION**
-  **HIGHLY STRETCHABLE**
-  **92% NYLON - 8% SPANDEX**

## ANT 50N BUOYANCY AID JACKET

Ant is the 50N nylon buoyancy aid vest designed to let you enjoy stand-up paddleboarding or kayaking without limiting your movement.

The jacket's structure leaves the shoulders and waist free, letting you paddle without noticing you're wearing it.

Featuring a front zip opening, front straps and fully adjustable shoulder straps, it adapts to any build and is available in different unisex sizes.

CE certified according to EN ISO 12402-5

<b>Foam</b>	100% PE
<b>Coating</b>	100% 420D Nylon Fabric

# HORNET 50N THERMIC BUOYANCY AID JACKET

Hornet is the 50N buoyancy aid vest designed to provide additional thermal protection.

Made of PVC and soft neoprene, it wraps around the torso to allow high comfort and freedom of movement during water activities.

Equipped with front zip opening and adjustable straps at the waist, available in two models.

CE certified according to EN ISO 12402-5

# BAGS AND BACKPACKS

From carrying your equipment ashore to activities on the water, Cressi Hydrosports bags and backpacks offer ideal solutions for every space and task requirement.

## TRANSPORT BACKPACKS FOR ISUP AND IKAYAK

Cressi Hydrosports backpacks for carrying equipment are designed with only the best materials and components, to ensure strength and practicality.

Available in three different sizes to fit different sets, they feature adjustable shoulder straps with chest support straps, internal straps to secure and gather gear, a mesh bottom for ventilation, and a practical front pocket for small parts and accessories.

The sizable zip lets all the backpacks open fully, making it easy to put equipment inside.

**TERA BACKPACK 60 L**

## SPIDY 25 L DRY DECKPACK

Spidy 25L Dry Deckpack came from the desire to create a waterproof backpack that can be comfortably carried on the board during sessions at sea. Spidy is a deckpack featuring adjustable straps with snap hooks, which can be hooked to the D-rings of each SUP in the collection.

The backpack is completely waterproof and can be opened and closed in two different ways: from above, thanks to the large pocket with strap for watertight closure, or from the base via the practical dry zip that surrounds the backpack's structure. The lower hinged opening is especially useful at sea, as it lets you easily access the inside of the deckpack without having to unroll the upper opening. The front part of the backpack has a handy elastic, while the side has a mesh pocket.

The back and the adjustable padded shoulder straps, combined with the adjustment strap for the chest, make Spidy a convenient, comfortable and roomy backpack, ideal for all water activities.

## FREEZY 15 L DRY COOLERBAG

Semi-rigid and fully waterproof cooler bag equipped with adjustable straps on the front and back of the structure to attach to the D-rings on the deck of your board.

It maintains the temperature of food and drinks for approximately 12 hours thanks to the thick insulating layer and the exclusive watertight zip that prevents water entering or leaving, making it ideal for filling with edible ice for your drinks.

Equipped with a practical front pocket, adjustable shoulder strap, padded handles and practical bungee elastic cords on the opening.

Width	34 cm	13"
Height	34,5 cm	13"
Depth	27,5 cm	11"

## FLOAT CASE FLOATING DRY PHONE CASE

Float Case is the floating waterproof cover in the Cressi Hydrosports line.

Designed to hold smartphones with screens up to 6" and a maximum weight of 200 g, without losing buoyancy performance.

The internal foam is designed to let you take photos from the rear camera of any phone, assisted by the air trapped inside the cover, and prevents the case from falling to the bottom.

Float Case allows excellent interaction with touch screens and doesn't hinder calls.

The velcro closure, assisted by a small pressure zipper, will always keep phones dry inside.

Float Case is equipped with a practical string for carrying around the neck and a neoprene arm band with velcro.
